

Employment Opportunities // Landscape Architect (1-3yrs)

Applied Landscape Design is a full service Landscape Architecture, Urban Design and Landscape Management practice based in Oxfordshire.

The practice, established in 2002 by Kym Jones, are proud to offer clients a valuable mix of multidisciplinary expertise, personal involvement, commitment to detail and a desire to deliver truly successful projects.

The team has a wealth of experience working with corporate, government and private clients to design parks and public gardens, streetscapes, roof gardens, commercial and corporate headquarters, retail developments, housing, health and education projects.

we design // we deliver // we create

The Position

We have a vacancy in our Chesterton Office for a Landscape Architect with 1-3yrs experience, to strengthen our existing team. We are looking for someone that is a creative designer, proven deliverer on projects, confident in design team meetings and presentations, also someone that is organised and technically minded.

Training & Professional Development

We encourage our staff to develop their personal and professional skills through tailored training and group CPD activities. Landscape Architects new to the profession will be supported throughout their training and successful applicants will have the opportunity to be directly involved in a comprehensive range of high profile schemes, providing an excellent footing for progression on the LI's Pathway to Chartership.

Duties & Responsibilities

- Design Team Meetings and Site Inspections
- Feasibility, concept design, development and consultations
- Preparation of drawings, reports and contract documents
- Responsibility for project ownership within the office
- Carry out or assist in surveys and assessments
- Liaison with multi disciplinary teams
- Support other members of staff and plan your workload
- 3D modelling and organisation of project share folders
- Drawing reviews and commenting internal and external

Qualifications & Experience

- Applicants should have a Degree, Post Graduate Diploma or Masters qualification, 1-3years experience in Landscape Architecture or an associated discipline

- Good presentation skills are essential, as well as the ability to prepare technical and working drawings
- Experience in AutoCAD, SketchUP, Adobe Creative Suite or similar programs is desirable
- Ability to organise own working and support for others
- Planting design / horticultural knowledge and skills
- Awareness of current trends, sustainable design and material properties
- Experience of LVIA process and report writing is desirable

Location

This post will be based at Applied Landscape Design, The Threshing Barn, Bignell Park Barns, Chesterton, Nr. Bicester, Oxfordshire OX26 1TD. Approx. 45mins by train from London

Salary & Benefits

We believe that to attract the best we should offer excellent rewards. Graduates will enjoy a competitive salary determined by experience levels and current skills, which will be based on 37.5 hours per week. A flexible start date can be negotiated

To Apply

Send your CV and a showcase of your work at the earliest opportunity, please include a cover letter outlining why you wish to work for ALD and what you hope to achieve
